REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-4 are allowed, as the prior art of record does not teach or suggest a method of effecting magnetic resonance experiments, wherein steps are adapted using said difference to reset the amplitude and phase of the transmit radio-frequency signal input such that the amplitude and the phase of the current in the coil are to high accuracy equal to the required value, in combination with the remaining limitations of the claims.

Claims 5-11 are allowed, as the prior art of record does not teach or suggest a method for effecting magnetic resonance experiments, including steps for providing a phase adjustment means, anywhere within the electrical signal loop that constitutes the feedback circuit, to adjust the phase of signals so that the feedback is negative, in combination with the remaining limitations of the claims.

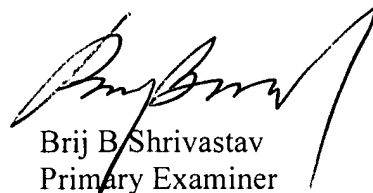

Claims 12-18 are allowed, as the prior art of record does not teach or suggest a method of effecting magnetic resonance experiments, including steps for feeding the radio-frequency output of the voltage injector to the receive coil so as to constitute a feedback circuit such that the signals for analysis S and S are to high accuracy independent of the changes in electrical characteristic and electrical and physical environment of the receive coil, in combination with the remaining limitations of the claims.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brij B. Shrivastav whose telephone number is 571-272-2250. The examiner can normally be reached on 7 AM to 4 PM.
4. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dean Reichard can be reached on 571-272-1984. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
5. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
